

Electrical Engineering

D.E. (Diploma in Engineering) 1 Year to 3 Year
B.E. (Bachelor Program in Engineering) 1 Year to 4 Year
M.E. (Master Program in Engineering) 1 Year to 2 Year

(D.E.) Diploma in Engineering

(Duration
1 Year
to 3 Year)

Year-1

1. Electrical Engineering Materials
2. Electrical Science
3. Electrical Engineering Drawing
4. Mathematics

Year-3

1. Electronics Devices & Circuits
2. Electrical Power
3. Power Electronics
4. Utilization of Electrical Energy

Year-2

1. Electrical Machines
2. Basic Electronics
3. Electrical Measurements & Measuring Instruments
4. General Engineering & Fabrication Techniques

Project Paper

Eligibility: 10th with 2 Year Experience
Course Fee: 10,000/- (Per Year)

B.E.(Bachelor Program in Engineering)

(Duration
1 Year to
4 Year)

Sem-I

1. Mathematics – I
2. Physics – I
3. Chemistry
4. Engineering Graphics

Sem-II

1. Mathematics – II
2. Physics – II
3. Computer Programming & Information Technology
4. Electrical Technology

Sem-III

1. Applied Thermodynamics
2. Data Structures
3. Circuit Theory
4. Digital Circuits

Sem-IV

1. Electrical Measurements
2. Electrical Machines I
3. Analog Circuits
4. Signals & Systems

Sem-V

1. Electrical Machines II
2. Control Systems I
3. Power Systems I
4. Digital Signal Processing

Sem-VI

1. Power Electronics
2. Electric Power Generation
3. Power Systems II
4. Control Systems II

Sem-VII

1. Electrical Drives
2. Switchgear & Protection
3. Opto- Electronics
4. Practical

Sem-VIII

1. High Voltage Engineering
2. Utilization of Electrical Power
3. Robotics
4. Practical

Eligibility: 10+2 Diploma with 3 Year Experience
Course Fee: 8,000/- (Per Semester)

(M.E.) Master Program in Engineering

(Duration
1 Year
to 2 Year)

Sem-I

1. Advanced Engineering Mathematics
2. Advanced Microprocess
3. Advanced Power System
4. Advanced Control System

Sem-II

1. Protection of Power System & Device
2. Power System Networking & Management
3. Measurement And Instrumental
4. Ion in Power System Drives Energy System

Sem-III

1. Logic and Functional Programming
2. Natural Language Processing
3. Embedded Systems
4. VLSI Design

Sem-VI

1. Simulation and Modeling
 2. Computer Design
 3. E-commerce and Network Security
 4. Network Programming
- Project Work**

Eligibility: BE with 2 Year Experience
Course Fee: 10,000/- (Per Semester)

Authorization & Accreditation

**All
Time
Help**

**Ukas
Management
System**

**Under Societies Registration
Act of XXI, 1860**

How to apply: -

A candidate can apply online by following the below mentioned process:

1. If required, the Centre will assist you in filling up and submitting your online form. You can fill your query on our website or you can call on our website number to take assistance from our counselors over call or through mails. Fill up the online lead form with the course of your choice and our counselors will get in touch with you.
2. Carry the relevant documents required and visit your nearest Authorised Centre.
3. Print out of your form, sign and affix your photograph and submit it along with the required eligibility documents to the University. Fee payment has to be made in any one of the modes mentioned in the Prospectus.
4. If the application is complete and the University receives the relevant eligibility documents, the applicant will be granted admission and a confirmation email sent out. The self-learning material and identity card will be dispatched through the Authorised Centre. Students can view the status of your application on this website by entering your application number
5. After finalizing the course and University, you have to mail the documents required and pay the fees through Pay U, NEFT, bank deposit and Cheque for further proceedings.

More Information you can call 9210989898
